- 1-Paid Time should be in 30 minute increments for time over the 2-hour minimum.
- 2-Mileage can only be claimed if number of miles traveled from your starting point to the interpreting site is more than 15 miles one way.
- 3-Travel time is actual drive time if over 50 miles.
- 4-Travel time compensation can only be claimed if total mileage for one day is over 50 miles and the amount of time spent traveling, combined with the amount of time spent interpreting exceeds the 2-hour minimum. Excess travel time x \$28. (See back of form for instructions.)

**Forms must be received by the Court Administrator by the 7<sup>th</sup> day of each month. Statements received on or after the 7<sup>th</sup> of the month will be processed the following month. Complete all totals for all statements on the bottom of the first statement. Each entry must have all fields completed in full to be processed. Keep a copy for your records.**

Calculating Travel Time Paid

**ONLY USE THIS WORKSHEET FOR DAYS WHEN TRAVEL IS MORE THAN 50 MILES**

If your actual interpreting time is less than the 2-hour minimum and you travel more than 50 miles in one day, you will need to add your total travel time to your actual interpreting time to come up with your travel time compensation. Only if the interpreting time and travel time combined exceeds the 2-hour minimum will travel time be compensated. If the combined total is less than the 2-hour minimum, travel time **will not be** compensated.

Example 1:

Actual interpreting time =	½ hour	
Total travel time =	1 hour (½ hour each way)	
Total combined interpreting and travel time =	1 ½ hours	
Travel time compensation =	0 (because the 2-hour minimum has not been achieved)	
Interpreter time paid		\$70.00
Travel time in excess of 2-hour minimum	<u>0</u>	
Excess travel time x \$28.00		\$ 0.00
= (equals) Travel time compensation		\$ 0.00

Example 2:

Actual Interpreting time =	½ hour	
Total travel time =	2 hours (1 hour each way)	
Total combined interpreting and travel time =	2 ½ hours	
Travel time compensation =	½ hour (because the interpreting time and travel time exceeds the 2-hour minimum)	
Interpreter time paid		\$70.00
Travel time in excess of 2-hour minimum	<u>.50 hours</u>	
Excess travel time .50 x \$28.00		\$14.00
= (equals) Travel time compensation		\$14.00

**For each day travel time qualifies, complete the following and transfer the total to the front page of this form.**
