

Specialized Substance Abuse Supervision (SSAS) Quarterly Report:

Date Range:
October 1 - December 31, 2020
(unless noted)

SSAS is a specialized supervision program that works with high risk substance use clients. This intensive case management approach, addresses individual client needs as it relates to their high risk behaviors and substance use issues. The supervision process includes: drug testing, programs and services, immediate sanctions, and incentives that are all utilized to assist clients in changing their behavior and moving on to recovery.

Starting with Quarter 4 of 2020, the process for identifying SSAS clients has been brought into alignment with best practices. Due to this change in data collection, the SSAS population is more refined and should not be compared to previous quarterly reports.

534
Current Population
(December 31, 2020)

3 Types of SSAS Clients

60% - Felony Drug

13% DUI - Third

27% - General Felony

4,928
