# Weighted Caseload Report

## Nebraska County Courts Weighted Caseload Report

Nebraska has a separate juvenile court in Douglas, Sarpy, and Lancaster counties. Pursuant to Neb. Rev. Stat. § 43-2,119, the Legislature determines the number of separate juvenile court judges who serve in counties which have established a separate juvenile court. An objective assessment of judicial workload allows informed decisions about district boundaries and the number of judges needed to timely resolve the cases in each of the counties that has a separate juvenile court.

To assist in evaluating judicial workloads, Neb. Rev. Stat. § 24-1007(1) requires the Nebraska Administrative Office of the Courts and Probation (AOCP) to compile judicial workload statistics based on caseload numbers weighted by category of case. These weighted caseload statistics are used by the Judicial Branch, the Judicial Resources Commission, and the Legislature to evaluate judicial need, and guide decisions and recommendations on how best to allocate judicial resources across the state.

To ensure the validity, uniformity and accuracy of the AOCP's judicial workload statistics, a statewide judicial time study was conducted in 2019-2020 under the direction and leadership of the National Center for State Courts. For a full description of the judicial time study and the recommended weighting methodology and standards, see *Nebraska Judicial Workload Assessment Final Report* (October 2020) on the Nebraska Supreme Court Website. Because this Weighted Caseload Report utilizes the methodology and standards from the 2020 workload assessment, direct comparison to archived reports is not recommended.

No quantitative judicial workload assessment method, including the weighted caseload method, can determine the exact number of judges needed within each separate juvenile court. But weighted caseload statistics can approximate the number of judges needed to handle the current caseload in the separate juvenile courts. When weighted caseload statistics are examined in conjunction with other important influencing factors it provides an objective and standardized way to assess judicial need and to fairly allocate judicial resources among the separate juvenile courts.
